

Elog - Bug #10948

Login Errors

11/18/2015 08:21 AM - Chip Edstrom

Status:	Closed	Start date:	11/18/2015

Description I've run into this a couple times, where I try to log in with my services username and password and it gives me the error below. I'm fairly confident that both username and password are correct in these cases. When I return to the authentication page and refresh with an 'F5' it allows me to log in. It might be that a cookie is expiring? Details Timestamp: 2015-11-18 08:16:30.530 URI: /Elog/j_security_check Query: null Exception: null Message: Invalid direct reference to form login page Status code: 400 User agent: Mozilla/5.0 (Windows NT 6.1; WOW64; rv:38.0) Gecko/20100101 Firefox/38.0
